Problem Statement: Patient Appointment Booking and Report Tracking

I am a patient trying to book a diagnostic test and receive my report on time, but appointments and report updates are difficult to track because the process is manual and disconnected, which makes me feel worried and frustrated.

Solution: A ServiceNow application that enables easy online test booking, appointment confirmation, notifications, and secure access to medical reports.

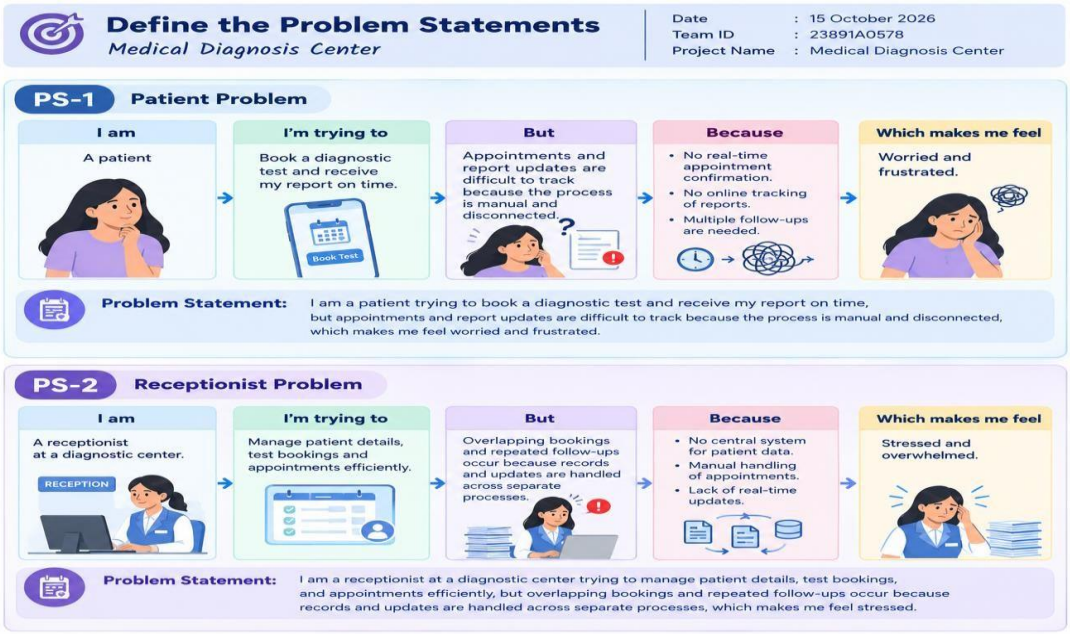

PS-1: Patient Problem

Problem Statement: I am a patient trying to book a diagnostic test and receive my report on time, but appointments and report updates are difficult to track because the process is manual and disconnected, which makes me feel worried and frustrated.

PS-2: Receptionist Problem

Problem Statement: I am a receptionist at a diagnostic center trying to manage patient details, test bookings, and appointments efficiently, but overlapping bookings and repeated follow-ups occur because records and updates are handled across separate processes, which makes me feel stressed.

Project Name : Medical Diagnosis Center
PS-1 Patient Problem
I am
A patient
I'm trying to
Book a diagnostic test and receive my report on time.
Book Test
But
Appointments and report updates are difficult to track because the process is manual and disconnected.
Because
No real-time appointment confirmation.
No online tracking of reports.
Multiple follow-ups are needed.
Which makes me feel
Worried and frustrated.
Problem Statement:
I am a patient trying to book a diagnostic test and receive my report on time, but appointments and report updates are difficult to track because the process is manual and disconnected, which makes me feel worried and frustrated.
PS-2 Receptionist Problem
I am
A receptionist at a diagnostic center.
RECEPTION
I'm trying to
Manage patient details, test bookings and appointments efficiently.
But
Overlapping bookings and repeated follow-ups occur because records and updates are handled across separate processes.
Because
No central system for patient data.
Manual handling of appointments.
Lack of real-time updates.
Which makes me feel
Stressed and overwhelmed.
Problem Statement:
I am a receptionist at a diagnostic center trying to manage patient details, test bookings, and appointments efficiently, but overlapping bookings and repeated follow-ups occur because records and updates are handled across separate processes, which makes me feel stressed.
