Project Design Phase
Proposed Solution Template

Date	15 October 2026
Team ID	23891A05C2
Project Name	Medical Diagnosis Center
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Manual diagnostic-center processes make patient registration, test booking, appointment scheduling, report tracking, and communication difficult. These processes can cause delays, errors, and inconvenience to patients and staff.
2.	Idea / Solution description	Develop a centralized ServiceNow application and Service Portal for online patient registration, diagnostic test booking, appointment scheduling, automated notifications, report status tracking, and secure report access.
3.	Novelty / Uniqueness	The solution integrates appointment management, real-time slot validation, report tracking, automated notifications, and role-based access in one centralized platform.
4.	Social Impact / Customer Satisfaction	The application reduces waiting time, improves communication, provides convenient access to reports, protects medical information, and improves patient satisfaction.
5.	Business Model (Revenue Model)	Revenue can be generated through diagnostic test booking fees, laboratory service charges, and subscription or maintenance fees for diagnostic centers using the platform.
6.	Scalability of the Solution	The application can be expanded to multiple diagnostic centers, additional test categories, more users, online payments, and advanced management dashboards.
